

Success Pack

The Success Pack is an individual coaching program that is tailored specifically to you and your development needs. Over 6 months, you will accelerate your career accomplishments, through the coaching, support and resources provided.

The Inclusions

- 2 profiling tools plus in-depth debrief
- 6 x monthly coaching sessions (in person or video conference)
- 6 x monthly accountability check-ins
- Supporting resources include articles, videos and worksheets

The Results

The Success Pack is a completely tailored journey, however some of the results you can achieve are:

- Expand your thinking to allow you to think more strategically and play a bigger game with ease
- Communicate more effectively at work and at home resulting in stronger leadership and deeper, more collaborative relationships
- Build resilience to help you adapt and deal with challenges in a controlled and confident manner
- Focus on executive presence to ensure your personal brand is in line with your future success goals and plans
- Become a more confident and influential leader, empowering your team to work more effectively and autonomously
- And so much more!

What Athena Coaching clients say ...

“ When I first met Linda I had a project that felt as huge and daunting as Mount Everest. I had no idea how I was going to climb to the top, let alone what tools and equipment I needed. In one session, Linda enabled me to confidently clear the debris and find the right track to reach the summit. Within one month I kicked more goals than I ever dreamed possible. My little victories (steps) have led to bigger victories and now I look back with pride and excitement on how far I have come.

I am stunned how one 30-minute phone conversation with Linda has resulted in all this positive change, creation and success.

I am so close to reaching the summit, but best of all, the view from up here is glorious!

Thank you so much! ”
